

# Green Mining 2016

## -International Workshop on

# Coal-and-Rock Burst

*Mechanism, Prediction and Control*

University of Wollongong  
New South Wales | Australia  
Monday 28<sup>th</sup> November 2016

As a key part of the 2016 International Green Mining Symposium, You are cordially invited to attend this 1-day workshop on coal bump and rock burst in underground mines co-organised by the University of Wollongong and China University of Mining and Technology. This workshop will provide an opportunity of in-depth discussion on the mechanism, prediction and control of coal and rock burst, particularly in deeper mines. Presentations covering a range of topics will be delivered by top researchers, engineers and scholars from China, Czech Republic, Poland and Australia.
